

Julie Thomas – CM Independent Advisor

Picket Fence Card 1

You will need:

Tools

- Border Maker System
- Picket Fence Cartridge
- 12" straight cutter
- Multi purpose tool

Consumables

- Tape runner
- Orange & yellow cardstock (Shades of Bright)
- Red cardstock (Shades of Red)
- Multicoloured large dot paper (Look on the bright side)

Instructions

Note: all measurements in inches

1. Cut a piece of orange cardstock 6x8. Score at the 4" mark and fold in half to create a 'portrait' side fold card measuring 6x4.
2. Using the border maker system with the picket fence cartridge, create a border on the front of the card on the opening side.
3. With a piece of red card stock, make a picket fence piece measuring 6 inches long and 1 $\frac{1}{8}$ " wide.
4. Repeat with yellow cardstock.
5. Adhere red picket fence under the orange picket fence, bringing the points of the fence out to line up with the outer edge of the back of card.
6. Adhere yellow picket fence over the top of the orange, but taking it back away from the edge of the card, giving a layered effect.
7. Cut a piece of dot paper 2 $\frac{1}{4}$ x 5 $\frac{3}{4}$ and adhere to front of card as shown.
8. Add any embellishments and sentiments you wish for the occasion of your choice.
